

Alabama State Park's commitment to professional maged trails has resulted in Parks Director Gregory M. Lein appointing Ken Thomas as a Superintendent II attending to the management of a new **Alabama State Parks Trails Coordinator**. Under the new role of Trail Coordinator, Ken will be circulating among the parks addressing a new managed trails program that is expected to take the Alabama State Park systems' trails to a higher level, and thereby address a growing public interest in the availability, diversity, and caliber of recreational trail which we can offer the public.
