FABRICATION

Fabrication of all parts shall be accomplished in a uniform and workmanlike manner. All panel fabrication, including cutting, punching, and drilling of holes, shall be completed prior to final surface preparation and application of primer or finish treatment. Metal panels shall be cut to size and shape and shall be free of buckles, warp, dents, burrs, and defects resulting from fabrication.

The panels shall be fabricated from standard widths of aluminum sheet. The blanks shall be cleaned, degreased, and chromated or otherwise properly prepared in accordance with DuPont's Two-Step process noted above.

The signs should be mounted on 4 x 4 treated wooden posts or appropriately sized metal supports. Be sure to instruct the sign fabricator on the location of the sign mounting holes.

*Any deviations from the above sign specifications and/or mounting and installation specifications must be approved in advance, in writing by ADECA.
