Re: Supplemental CDBG Disaster Recovery Funds

The State of Alabama anticipates receiving an additional \$49,157,000 from the U.S. Department of Housing and Urban Development to support tornado disaster recovery efforts in 2011 presidentially declared disaster areas. The funds will be administered by the Alabama Department of Economic and Community Affairs (ADECA) and are intended to be used in disaster areas for housing, business, and infrastructure recovery beyond those needs addressed by other forms of public and private assistance.

In anticipation of this funding, and with respect to the expected time constraints to be placed on these funds, ADECA is hosting an informational session for interested parties to explain and seek comments on structuring ADECA's Action Plan which will begin as soon as the notice is published. Your attendance at this meeting should help you in timely development of projects for possible disaster funding.
