**Subject:** Fiber internet Cold springs

To whom it may concern,

I live in rural Cullman county. I have contacted every internet provider in my area. The options are extremely limited. Out of the 4 companies, only 1 was able to provide Internet.

I homeschool 3 kids ages 9-16. I also work from home. Even though I pay close to \$300 a month for unlimited internet, they throttle me half way through and we are barely able to open emails.

We desperately need help.

Brandy Davis
