

To Whom It May Concern,

My family and I are residence in the Cold Springs community. We are never had reliable internet service. We have had it through Dish and currently with AT&T from a wifi box or hot spot box. Not sure what you would call it. We also currently have the box that was provided by the state for school children. We are not able to stream one or two devices at the same time. I am currently looking for a job in medical coding that would require remote work. With our current internet situation that would probably be impossible for me to do that. This is a desire of mine and I hope someone can come up with a solution for our area. My children also have virtual on Wednesdays and its difficult at times for them both to logged in for class work. The Cold Springs community is in desperate need for a good reliable internet. We are currently at 10188 County Road 109 Bremen, AL 35033. Thank you for any and all help you may be able to provide in this situation.

Sincerely,

Jennifer Moreland
