

Attachment B, Project Description
Service Area Map

| | |
|------------|-----|
| Households | 398 |
| Businesses | 6 |

- Urban and Urbanized Areas represent areas identified and delineated by the US Census Bureau. Visible regions represent two types of areas: Urbanized Areas (UAs) of 50,000 or more people and Urban Clusters (UCs) of at least 2,500 and less than 50,000 people. Layer obtained from the US Censu Bureau (<https://www.census.gov/>).

- Broadband Availability layer represents approximate terrestrial broadband coverage with a minimum advertised download speed of 10 Mbps and minimum upload speed of 1 Mbps It does not include satellite or wireless broadband coverage as reflected on the ADECA broadband availability map. Data was were generated using the FCC December 2016 Form 477 data joined to 2010 census blocks (<https://adecagis.alabama.gov/Broadband2018/>).

- Incorporated places represent Cities and Towns identified by the US Census Bureau as active incorporated places that do not serve as a county subdivision or equivalent.Layer obtained
