Energy Efficiency and Community Block Grant Program FY24 Grant Application and Guide Energy-Efficient Retrofits

AUTHORITY

The EECBG Program is authorized by Title V, Subtitle E of the Energy Independence and Security Act of 2007 (EISA), as amended, and signed into Public Law (PL 110-140) on December 19, 2007. All awards made under this program shall comply with applicable laws and regulations including, but not limited to, 2 CFR Part 200 as amended by 2 CFR Part 910 and Section 40552 of the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58).

PURPOSE

The Alabama Department of Economic and Community Affairs (ADECA), Energy Division manages the Energy Efficiency and Conservation Block Grant Program (EECBG) for Alabama by the authority of the U.S. Department of Energy (DOE). The EECBG is a formula grant used to reduce energy consumption in Alabama. The Energy Division is accepting applications for grants to be used for the purchase and installation of energy-efficient improvements. Applications should be developed with thoughtful consideration being given to the certifications contained on [page 17](#).

GRANT APPLICATION GUIDELINES

Applications shall be submitted in PDF format to eecbg@adeca.alabama.gov by **11:59 PM, CST on May 15, 2024**. Any applications received after the deadline will not be considered. All applications must be complete; however, ADECA reserves the right to contact applicants for additional information and/or clarifications.

A confirmation of receipt will be emailed after submittal. Applicants are strongly encouraged to submit applications in advance of the deadline. Please keep a complete copy of your application and any attachments for your record.

Questions pertaining to this Grant Application and Guide may be submitted in writing by email to eecbg@adeca.alabama.gov.

This Grant Application and Guide and Frequently Asked Questions can be found on ADECA's website at <https://adeca.alabama.gov/about/funding-opportunities/>.

ELIGIBILITY

Incorporated units of local government (municipalities and counties) in the State of Alabama that were not allocated a direct EECBG formula allocation from the U.S. Department of Energy.

FUNDING

Projects must be completed within 18 months of the effective date of the grant agreement. The Energy Division anticipates awarding grants to begin on **July 1, 2024**.

All projects will be scored based on the established rating criteria. The criteria can be found at <https://adeca.alabama.gov/about/funding-opportunities/>. Those eligible projects receiving the highest scores will be selected for funding. The number of projects funded will be determined by the funds available and the total amount of requests made. The Energy Division reserves the right to reallocate funding for subject areas as deemed necessary. ADECA may request amended projects and/or offer reduced grant participation.

Total Available: At least **\$2,000,000**

Minimum Award: **\$50,000** per applicant

Maximum Award: **\$250,000** per applicant.

METHOD OF PAYMENT

Payments may be made on a reimbursement basis or an advance basis. Subrecipients qualifying for advance payment must provide that it maintains or demonstrates the willingness to maintain both written procedures that minimize the time elapsing between the transfer of funds and disbursement by the subrecipient, and financial management systems that meet the standards for fund control and accountability as established in [2 CFR Part 200](#). Subrecipients may also elect to be paid through reimbursement of eligible costs up to the award amount in the grant agreement. Based on a risk assessment conducted by ADECA, all subrecipients will be assigned a risk score.

Those subrecipients with higher scores may be required to follow different payment procedures. Those subrecipients considered high risk may be placed on reimbursement only status.

All subrecipients must register in the State of Alabama Accounting and Resource System ([STAARS](#)) Vendor Self Service (VSS) portal in order to receive payment. Subrecipients can elect to be paid via Electronic Funds Transfer (EFT) or paper check when registering.

ELIGIBLE MEASURES

Energy-efficient retrofits that include, but are not limited to, lighting, HVAC, insulation, and building energy management systems.

- Installation of energy-efficient lighting
- HVAC upgrades (to existing systems)
- Installation of insulation
- Weather sealing
- Purchase and installation of energy-efficient appliances and equipment
- Retrofit of energy efficient pumps/motors for water treatment plants
- Building energy management systems
- Programmable thermostats
- Photovoltaic systems
 - Must be on existing rooftops and parking shade structures or;
 - A ≤ 60 KW system unit installed on the ground within the boundaries of an existing facility.
- Solar thermal systems must be ≤ 20 KW

INELIGIBLE MEASURES

- Energy-efficient windows and doors
- Photovoltaic Systems outside the boundaries of an existing facility
- Solar thermal systems over 20 KW

ALLOWABLE ACTIVITIES

Under the EECBG Program, entities will develop various initiatives and projects that address one or more of the program purposes. Entities are encouraged to use their EECBG Program funds in a manner that is of maximum benefit to their population, in a manner that will leverage other sources of financing or funding and will yield maximum benefits over time in terms of energy and emission reductions. DOE also encourages entities to consider investing the funding in ways that lead to equitable and just outcomes. ([42 USC §17154](#))

COST SHARE

No matching contributions are required. However, an applicant can earn up to five additional points on their rating score for match provided.

JUSTICE40 INITIATIVE

EECBG is a Justice40 covered program and as such contributes to the President's goal that 40% of the overall project benefits of Federal investments in clean energy and climate solutions flow to Disadvantaged Communities (DAC) that for too long have faced disinvestment and underinvestment. DOE strongly encourages eligible entities to maximize project benefits and describe how these benefits with ADECA ensures that DOE's intent will be met regarding selecting projects that will provide benefits for underserved communities.

Benefits include (but are not limited to) measurable direct or indirect investments or positive project outcomes that achieve or contribute to the following in DACs:

- (1) A decrease in energy burden;
- (2) A decrease in environmental exposure and burdens;
- (3) An increase in access to low-cost capital;
- (4) An increase in job creation, the clean energy job pipeline, and job training for individuals;
- (5) Increases in clean energy enterprise creation and contracting (e.g. minority-owned or disadvantaged business enterprises);
- (6) Increases in energy democracy, including community ownership;
- (7) Increased parity in clean energy technology access and adoption; and
- (8) An increase in energy resilience.

Not all eight policy priorities will be applicable to all DOE programs or funding opportunities.

ENERGY-EFFICIENT RETROFITS PROGRAM GRANT APPLICATION

*APPLICANTS MUST USE THE FOLLOWING APPLICATION FORMAT AND **COMPLETE IN ITS ENTIRETY.**
FAILURE TO DO SO MAY RESULT IN LOSS OF POINTS.*

A. Applicant Information This section is worth 10 points.

Legal Name of Entity:

Type of Organization:

Employer ID Number (EIN):

Mailing Address:

Project Director Name & Title:

Phone Number:

Email:

CEO Name and Title:

Accountant Name and Title:

B. Budget

This section is worth up to 25 points. Please provide the following information to explain the estimated costs for the project budget. (Attach additional sheets as needed.)

1. Personnel and Fringe

List program personnel by title, include the salary amount of each person to be reimbursed for work on the project (Example: An employee with an annual salary of \$40,000 that will spend 25% of their time on the project, will have a salary budget of \$10,000). Next, enter the fringe rate. Personnel can include the Applicant's employees who will be installing the improvements. Personnel costs under a contract should be included under Contractual.

Title	Grant Amount		Matching Contribution	
	Salary	Fringe	Salary	Fringe

2. Supplies and Materials

List estimated type and cost of supplies and materials. Includes all tangible property and project materials for carrying out the approved scope of work that are not considered equipment (e.g. office supplies, postage, caulking, lighting). Materials supplied by a contractor are not allowed in this category and should be placed under Contractual.

Type	Grant Amount	Matching Contribution	TOTAL

3. Contracted Services

List categories of services to be contracted with outside agencies or for professional services. Note that written subcontracts must be obtained to engage these services. This category includes professional installation and all materials supplied by the installer.

Contracted Services	Grant Amount	Matching Contribution	TOTAL

4. Equipment

Provide a description of the equipment, cost, and reason why it is necessary to purchase the equipment. Equipment is defined as tangible, non-expendable property having a useful life of more than one year and an acquisition cost of \$5,000 or more per unit. Acquisition cost means the net invoice price of the equipment, including the cost of any modifications, attachments, accessories, or auxiliary apparatus necessary to make it usable for the purpose for which it is acquired. (Note: leased or rented equipment should be listed under the "Other" category.)

Description	Grant Amount	Matching Contribution	TOTAL

5. Other

List other costs including printing, graphics, telephone, rent/lease, maintenance, workshop fees, and computer services.

Expense	Grant Amount	Matching Contribution	TOTAL

6. Indirect

The ADECA, Energy Division will reimburse indirect costs at the Subrecipient's federally negotiated indirect cost rate of the Modified Total Direct Costs (MTDC) (items 1-7, except 6). The ADECA, Energy Division DOES NOT REIMBURSE INDIRECT COSTS ON EQUIPMENT PURCHASES). Attach a copy of your indirect cost rate agreement if you are showing indirect costs on your budget. The ADECA, Energy Division will not negotiate indirect cost rates with Subrecipients but will accept a federally negotiated indirect cost rate or a 10 percent de minimis rate of the MTDC. If requesting the 10 percent de minimis rate, Subrecipients must submit a certification the entity has never received a federally approved indirect cost rate.

		Grant Amount	Matching Contribution	TOTAL
Indirect Cost Rate	%			

BUDGET TOTALS

List the totals of each budget category above. Please make sure that the totals in each budget category listed above match the totals of each cost category below.

Cost Categories	Grant Amount	Matching Contribution <i>(not required)</i>	Project Amount
Personnel			
Fringe			
Supplies & Materials			
Contracted Services			
Equipment			
Other			
Indirect Cost (%)			
TOTAL			

C. Project Detail and Energy Savings Information

This section is worth up to 55 points and describes the project, timeline, and projected savings. Submit one copy of this section for each site/building/location. You may attach additional sheets for this section if necessary.

1. SITE INFORMATION <i>(This section is worth up to 5 points)</i>			
Name of Site:			
Physical Address (City, State, Zip):			
County:			
Gross Square Footage:	ft ²	Construction Date:	
Funding Requested for this Site:			
Estimated Completion Time:	months		
Does the site have any national or state historic site designations?			Yes <input type="checkbox"/> No <input type="checkbox"/>
Is the applicant aware of any adverse environmental impact which may arise from the implementation of any of the proposed energy conservation measures?			Yes <input type="checkbox"/> No <input type="checkbox"/>

2. DESCRIPTION OF PROJECT <i>(This section is worth up to 5 points)</i>
<i>Provide a brief description of the measures to be installed.</i>

3. QUALIFICATIONS AND EXPERIENCE OF APPLICANT

(This section is worth up to 5 points)

Description of the qualifications and experience of the applicant pertaining to the administration of grant awards and/or energy efficiency projects.

4. ENERGY-RELATED ACTIVITIES OUTSIDE OF PROJECT

(This section is worth up to 4 points)

Provide information on activities outside of the proposed project related to energy efficiency, renewable energy, or conservation, including performance contract, other retrofit activity, energy assessments completed, maintenance staff or teacher education, student curriculum, recycling programs, or similar projects.

5. PROJECT PLAN

(This section is worth up to 6 points)

Deliverables <i>(Description of task and what is to be accomplished. Must include but not limited to procuring supplies and materials/contracts and installation)</i>	Estimated Cost	Start Date (mm/yy)	Duration (days)

6. ENERGY-EFFICIENT RETROFITS

(This section is worth up to 15 points)

Please complete the following charts of all eligible measures that will be installed.
Use additional pages if necessary.

- ***EACH MEASURE LISTED MUST HAVE A PAYBACK PERIOD 10 YEARS OR LESS (PHOTOVOLTAIC EXCEPTED)***
- ***SAVINGS CALCULATIONS MUST BE SHOWN IN SECTION 7 FOR EACH MEASURE***

CURRENT		PROPOSED		Est. Cost	Est. Annual Savings	Est. Payback Period
Qty	Type, Age, Size, R-Value, etc.	Qty	Type, Age, Size, etc.			
						yrs.
						yrs.
						yrs.
						yrs.
						yrs.
						yrs.
						yrs.
						yrs.
						yrs.
						yrs.
						yrs.
						yrs.
						yrs.
						yrs.
						yrs.
						yrs.

7. ENERGY SAVINGS CALCULATIONS

(This section is worth up to 15 points)

Sample calculation for a **lighting** retrofit project:

Current lighting:

Watts per fixture: 90

Number of fixtures: 245

Proposed lighting:

Watts per fixture: 14

Number of fixtures: 225

Cost of Project: \$14,625

Run time: 60 hours per week, 3,120 hours per year

Electricity rate: \$0.12 per kWh

Annual savings

Current usage: $(90 \text{ w} \div 1,000) \times 3,120 \text{ hrs.} = 280.8 \text{ kWh} \times 245 \text{ fixtures} = \mathbf{68,796 \text{ kWh}}$

Proposed usage: $(14 \text{ w} \div 1,000) \times 3,120 \text{ hrs.} = 43.68 \text{ kWh} \times 225 \text{ fixtures} = \mathbf{9,828 \text{ kWh}}$

Energy Savings: $68,796 \text{ kWh} - 9,828 \text{ kWh} = 58,968 \text{ kWh savings} \div 1,000 = \mathbf{58.968 \text{ MWh}}$

Cost Savings: $58,968 \text{ kWh} \times \$0.12 = \mathbf{\$7,076 \text{ annual}}$

Payback: $\$14,625 \text{ project cost} \div \$7,076 \text{ annual cost savings} = \mathbf{2.1 \text{ years}}$

(Please show work here or attach to application)

8. ADDITIONAL INFORMATION

(Any additional information you wish to provide regarding your proposed measure)

D. Certifications

(This section is worth 10 points)

By signing below, the applicant certifies that they have completed or will complete (if issued an award) the following:

GRANT ADMINISTRATION

- Obtain a **Unique Entity ID (UEI) Number** ([formerly DUNS](#))
- Obtain an **Employer Identification Number (EIN)**.
- Register with the State of Alabama Accounting and Resource System ([STAARS](#)) Vendor Self Service (VSS) portal.
- Maintain an active registration in the **System for Award Management (SAM)** at <https://www.sam.gov>

PROCUREMENT

- Adhere to the **Build America, Buy America** provision where any projects that are categorized as “[Infrastructure Projects](#)” will require that any iron, steel, manufactured goods, and construction materials used in the project to be produced in the United States
- All laborers and mechanics employed by the applicant, subrecipients, contractors or subcontractors in the performance of construction, alteration, or repair work funded in whole or in part under this ALRD shall be paid wages at rates not less than those prevailing on similar projects in the locality, as determined by the Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40, United States Code commonly referred to as the “**Davis-Bacon Act**” (DBA).
- Adhere to the “**Beason-Hammon Alabama Taxpayer and Citizen Protection Act**” (Act 2011-535) that requires all employers within the State of Alabama to verify the legal presence of their employees. Verification is accomplished through registration in the federal **E-Verify** program at the U.S. Department of Homeland Security’s [website](#) or through the Alabama Department of Homeland Security’s [E-Verify Employer Agent Service](#) for Alabama businesses with 25 or fewer employees.
- Maintain a written procurement policy and follow proper **procurement procedures** as stated in 2 CFR Parts 200 and 910, all applicable subparts or appendices, and the [Alabama Competitive Bid and Public Works Law](#).

REPORTING

- Submit applicable supporting documentation including but not limited to contractor invoices and proof of payment.
- Submit data collected on the proposed project in **quarterly program status reports**.
- Submit a **final report** within 30 days following the completion of the project which will include information such as reduction in energy consumption and energy cost savings.
- Implement the use of **ENERGY STAR Portfolio Manager**. *Portfolio Manager* is an interactive energy management tool that allows tracking and assessing energy and water consumption. <http://energystar.gov/buldings>.

Certification	
<p>I, the undersigned, am authorized to obligate my entity and enter into agreements for my organization. I understand that the above certifications do not guarantee funding and a grant agreement will be executed prior to project funds being expended. I further understand that if the above statements cannot be verified, no grant funds will be awarded under this program. Finally, to the best of my knowledge the above certifications are true and correct.</p>
