Legend
No Drought Declaration
Advisory
Watch
Warning
Emergency

Continuing widespread rainfall has resulted in the elimination of drought conditions in Alabama. However, with the approaching summer season and higher temperatures, we can anticipate the potential for conditions to return. OWR will continue monitoring our water resources and update this Declaration as needed.

Water managers are urged to carefully monitor conditions and encourage the wise and efficient use of our water resources. Public water system customers are encouraged to follow their local water system’s recommendations regarding water use. All other water users should make prudent decisions on their water use to protect available resources.
