ECONOMIC REVITALIZATION GRANT APPLICATION

DISASTER RECOVERY: TORNADOES OF APRIL 2011

The Tornado Recovery Program provides opportunities to eligible Alabama communities with unmet economic revitalization needs as a result of April 2011 tornadoes to apply to ADECA for grants to address infrastructure and other needs in support of job creation or retention; creating a tax base; and offering essential services to local residents. The economic revitalization grant projects will be governed by Alabama's approved action plan for disaster recovery.

A detailed response to each item listed below will allow proper and thorough evaluation of proposed projects for funding consideration. (For applications with two or more independent projects comprised of separate businesses, address B.5. below separately for each project.)

- B.1. Provide a pre-tornado assessment of inadequacies associated with housing and essential community development facilities.
- B.2. Assess (a) the full extent of damage in the community caused by the tornadoes; (b) the recovery activities completed or ongoing; and (c) the remaining unmet needs including the post-tornado housing needs for all income groups.
- B.3. Describe the activities the community plans to undertake to address the post-tornado housing needs of all income groups including transitional housing needs of homeless individuals and families; prevention of low-income individuals and families with children (especially those with incomes below 30 percent of the area median) from becoming homeless; and the special needs of persons who are not homeless but require supportive housing (e.g., elderly, persons with disabilities, persons with alcohol or other drug addiction, persons with HIV/AIDS and their families, and public housing residents).
- B.4. Describe the community's short- and long-term recovery plans for restoring and rebuilding housing (including rental housing) and infrastructure, including plans for flood plain management; removal of barriers to reconstruction; adoption and enforcement of modern building codes to produce high quality, durable, energy efficient, mold resistant, and storm proof housing; and prior coordination with the planning requirements of other State and Federal programs and entities and describe how the community's use of grant funds will give priority to infrastructure development and/or rehabilitation.
- B.5 (i) Give detailed information about the new or existing business the applicant wishes to assist including name, product, market served, sales, employment, payroll, labor skills, and employee benefits. Also describe plans of the business in terms of location, relocation, or expansion;

construction of plants and buildings; purchase of equipment and inventory; and estimated investment and financing arrangements.

- (ii) Describe in detail activities the applicant is proposing to assist the business. Describe the need for infrastructure or other assistance and show quantity and unit cost of all major cost items including professional services, and the proposed method of financing. Clearly identify on one or more maps all proposed activities including relevant details.
 - (iii) Describe how the community's use of grant funds will serve an important economic revitalization activity by supporting job creation or retention, creating a tax base, and providing important services to local residents. Describe other unique attributes of the project.
- B.6. Discuss any other funds leveraged or to be leveraged for these activities. A subrogation agreement will be required from each grantee to ensure that there is no duplication of benefits. In order to comply with HUD requirements relating to duplication of benefits, if funds are awarded by any other source for the same activities before or after the date of ADECA's grant award CDBG disaster recovery funds must immediately be repaid to ADECA.
- B.7. Economic grant projects generally meet the national objective of benefitting 51 percent low- and moderate-income persons by creating or retaining jobs of which at least 51 percent meet the low- and moderate-income threshold. The applicant must explain below the number of jobs, including the low- and moderate-income jobs that will be created or retained as a result of assistance provided to current or new businesses. The businesses must use the Employee Income Certification form to document jobs as well as collect other required information such as ethnicity, race, and previous year income range of new or retained employees. The applicant must assure and explain why it feels certain 51 percent of jobs created or retained will be held by persons in low- and moderate-income households.

If the economic revitalization grant program is proposed to meet a national objective other than the one benefitting 51 percent low- and moderate-income persons, the applicant must explain in detail how the alternate national objective will be met.

Specifically the following percentages of low and moderate income beneficiaries serve as a minimum threshold depending on the type of project: 51% for public facilities activities and 100% for housing activities. Programs should be designed so as to give maximum feasible priority to activities which will benefit low and moderate income families or aid in the prevention of slums and blight. However, a proposed program may include activities which the grantee certifies are designed to meet other community development needs having a particular urgency because existing conditions pose a serious threat to the health or welfare of the community where other financial resources are not available to meet such needs.
- (b) If it has a previous Community Development Block Grant Program which has not been closed out, it will, if requested by the State, present the State with documentation to adequately demonstrate that it can expeditiously close out the previous program and manage a future program.
- (c) The local governing body accepts the responsibility for citizen comments and concerns related to the proposed program.

Anti-Displacement Assurance

As the duly authorized representative of the applicant, I certify that the applicant will comply with:

1. Section 104(d) of Title I of the Housing and Community Development Act of 1974, as amended. Each State recipient must adopt, make public, and certify to the State that it is following a "residential anti-displacement and relocation assistance plan."
2. Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended through 1987, (Public Law 100-17, 101 Stat. 246-256). This provision extends Uniform Relocation Assistance coverage to any person (family individual, business, nonprofit organization or farms) displaced as a direct result of rehabilitation, demolition, or privately undertaken acquisition carried out for a federally assisted project or program.

2. State the type of other government assistance (e.g., loan, grant, loan insurance).
3. Enter the dollar amount of the other government assistance that is, or is expected to be, made available with respect to the project or activities for which the HUD assistance is sought (applicants) or has been provided (recipients).
4. Uses of funds. Each reportable use of funds must clearly identify the purpose to which they are to be put. Reasonable aggregations may be used, such as "total structure" to include a number of structural costs, such as roof, elevators, exterior masonry, etc.

B. Non-Government Assistance. Note that the applicant and recipient disclosure report must specify all expected sources and uses of funds - both from HUD *and any other source* - that have been or are to be, made available for the project or activity. Non-government sources of

funds typically include (but are not limited to) foundations and private contributors.

Part III. Interested Parties.

This Part is to be completed by both applicants and recipients filing update reports. Applicants must provide information on:

1. All developers, contractors, or consultants involved in the application for the assistance or in the planning, development, or implementation of the project or activity and
2. any other person who has a financial interest in the project or activity for which the assistance is sought that exceeds \$50,000 or 10 percent of the assistance (whichever is lower).

Note: A financial interest means any financial involvement in the project or activity, including (but not limited to) situations in which an individual or entity has an equity interest in the project or activity, shares in any profit on resale or any distribution of surplus cash or other assets of the project or activity, or receives compensation for any goods or services provided in connection with the project or activity. Residency of an individual in housing for which assistance is being sought is not, by itself, considered a covered financial interest.

The information required below must be provided.

1. Enter the full names and addresses. If the person is an entity, the listing must include the full name and address of the entity as well as the CEO. Please list all names alphabetically.
2. Entry of the Social Security Number (SSN) or Employee Identification Number (EIN), as appropriate, for each person listed is optional.
3. Enter the type of participation in the project or activity for each person listed: i.e., the person's specific role in the project (e.g., contractor, consultant, planner, investor).
4. Enter the financial interest in the project or activity for each person listed. The interest must be expressed both as a dollar amount and as a percentage of the amount of the HUD assistance involved.

Note that if any of the source/use information required by this report has been provided elsewhere in this application package, the applicant need

not repeat the information, but need only refer to the form and location to incorporate it into this report. (It is likely that some of the information required by this report has been provided on SF 424A, and on various budget forms accompanying the application.) If this report requires information beyond that provided elsewhere in the application package, the applicant must include in this report all the additional information required.

Recipients must submit an update report for any change in previously disclosed sources and uses of funds as provided in Section I.D.5., above.
